

The **NEW** Grande SOQI Bed

New Design

High-tech design, meets ergonomic standards; more stable, applicable for larger market.

Design concepts :

1. "Touch" control panel - easy to operate
2. Two smaller bed body parts – Lighter, smaller, easily transportable.
3. Modified leg pieces – more supportive bed body offers greater stability.
4. Modified screws and accessories – easy to identify and assemble
5. New heat insulation strips – User friendly

★ Feature 1 -

Minimized bed structure – two separate bed body pieces

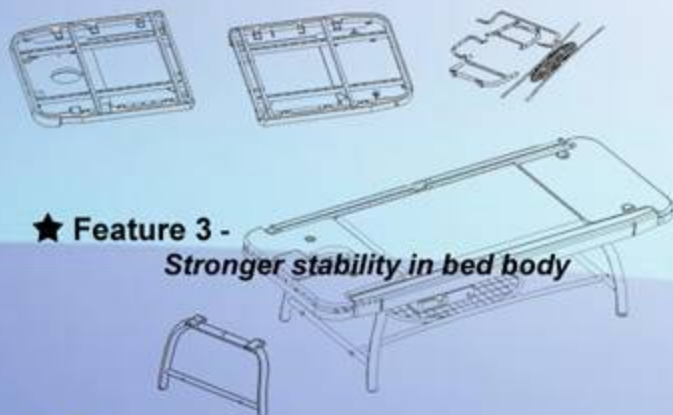

Easier to transport. Keeps packages intact during shipping process!
