

Enjoy The Warm, Comfortable Feeling In Your Own Home!

The unique arched design of the SOQI CERAMIC HEATER enhances the thermal-effect. You get total enjoyment - it is easy to use and very comfortable. It makes you feel absolutely terrific! Why are we hearing so many wonderful and positive things from many devoted users of the SOQI CERAMIC HEATER? Because the SOQI CERAMIC HEATER really works- and it is simple and convenient to operate. If you are looking for a perfect addition to massage or other manipulative modalities, the SOQI CERAMIC HEATER is perfect for you.

DIRECTIONS:

Maximum: 15-60 minutes, twice daily. You will experience warmth and comfort, similar to the feeling you get from a good massage. Use it on a regular basis. A very slight reddening of the skin is normal.

Application:

Undressing is not required. For best results, loose fitting clothing is suggested.

Warning:

- This device should NOT be used if you have any acute diseases, open sores, serious heart conditions, if you are using a pacemaker, or have serious high blood pressure.
- Maximum: 60 minutes, twice daily. Timer has a maximum of 60 minutes. Avoid using the device continuously.
- Do not use on overly sensitive skin areas. Do not use this product over your face and head.
- Avoid overexposure. Overexposure can cause premature aging, skin injury, scaling hyperpigmentation, and redness.
- Avoid prolonged contact with your body. If any red marks appear please stop using this product immediately and consult a physician.
- The unattended use of this product by children or disable persons is not allowed.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

SOQI®

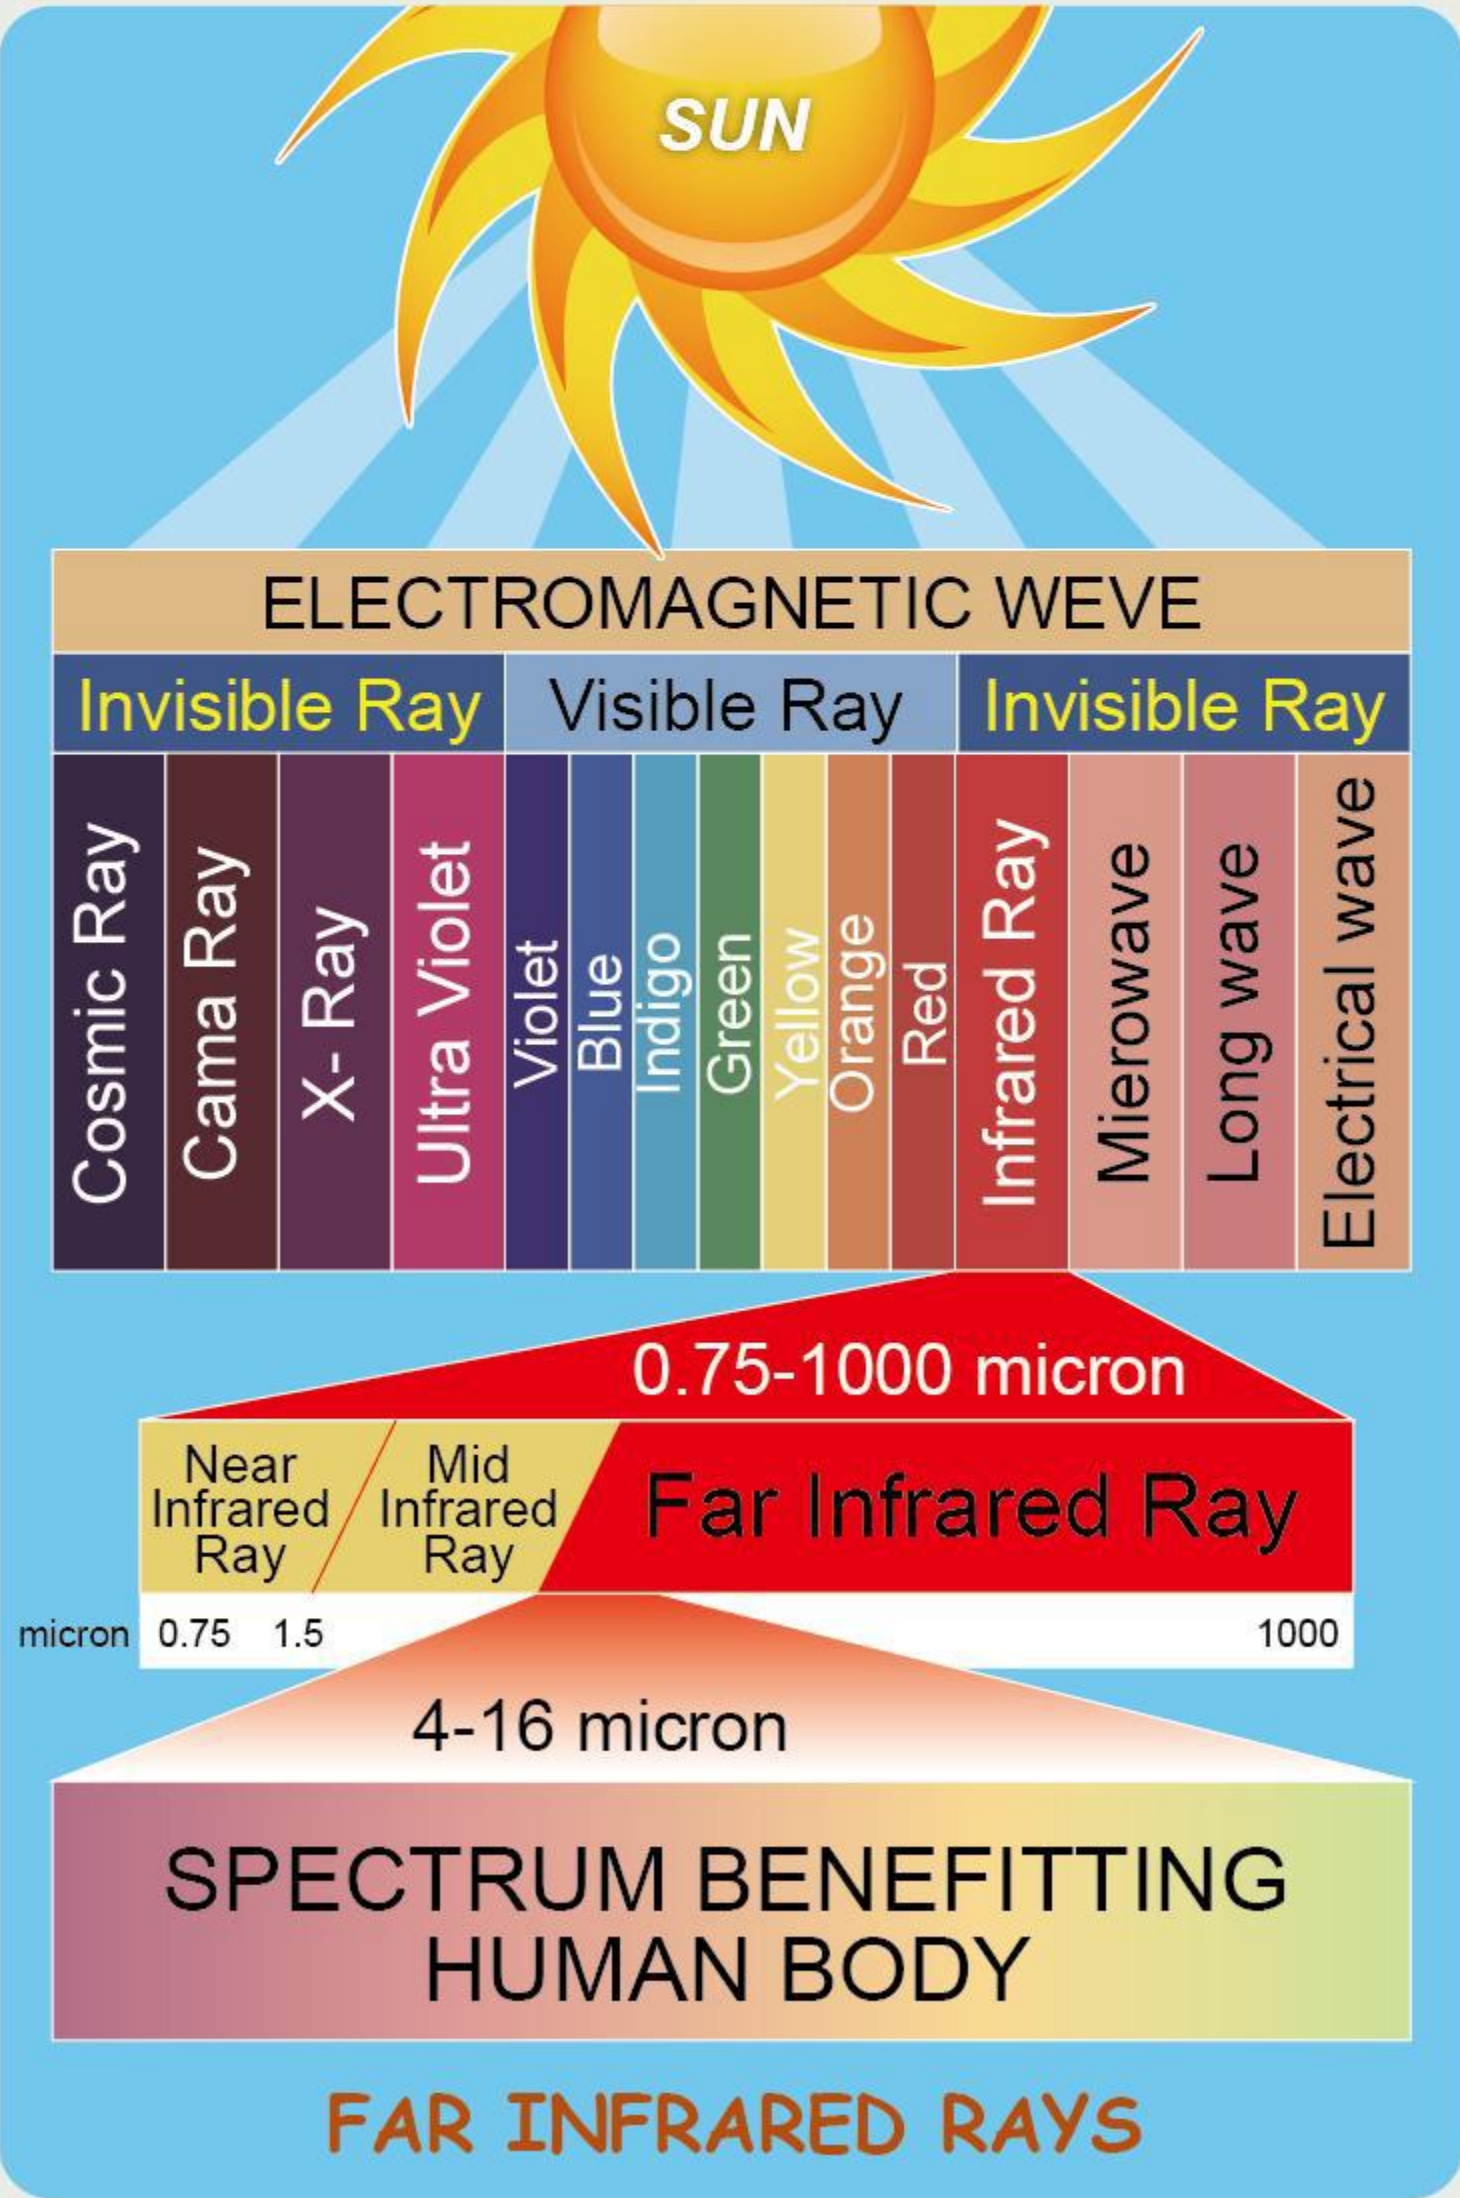

CERAMIC HEATER

FIR Topical Warming Unit

WHAT ARE FAR INFRARED RAYS (FIR)?

Within the magnetic spectrum, some rays, such as light, can be seen by the unaided human eye. They are mostly totally invisible to us. Far Infrared Rays (FIR) are well beyond the ability of what the naked eye can see. Far Infrared rays gently and delightfully provide a warm comfortable feeling. Far Infrared Rays can also generate a feeling of well being throughout the body. Now that Far Infrared Rays' outstanding properties are gaining recognition and acclaim worldwide; we are beginning to see it appear in a wide variety of applications.

SPECIAL FEATURES:

• The Importance of 8-10 micron Far Infrared Rays:

Normal human body temperature is 98.6°F. Most of our body heat is typically radiated away in far infrared range at the 8-10 micron wavelength, and that is why a room full of people becomes warm. So, if we generate 8-10 micron Far Infrared and direct it at a human body, it matches the radiant energy leaving the body and is best for the body's overall comfort.

• Why the Warm, Comfortable Thermal Feeling?

The "Super Radiant Heating Surface" is covered with a very fine, multi-faceted, acute-angle silicon surface manufactured in New Mexico. When rays are scattered in all directions by the countless surfaces created by these silicon crystals, the effectiveness of the 160 degree span is amplified. The radiant transmission area is increased some 10-fold. It simply wouldn't be possible to produce the effective warmth of the SOQI CERAMIC HEATER without the combination of these two design concepts: proper wavelength and a special reflective silicon surface.

• Electronically Controlled & Contains Safety Feature:

The surface temperature is automatically controlled by a built-in, specially-designed regulator which only allows a set temperature while a safety device precludes any chance of overheating due to a malfunction.

• Simple to Operate:

The SOQI CERAMIC HEATER provides its warmth without ever having to touch the skin. Just set the timer and relax. So simple and convenient, it consumes a mere 5 cents worth of electricity per hour!

• Small and Portable:

The size of the SOQI CERAMIC HEATER is designed to be just right for home use. You will be thrilled with the unique qualities of the SOQI CERAMIC HEATER. It is a must have for your home!

• A Wider, 160 Degree Heating Surface:

The arched 160 degree design greatly increases warming coverage. This unique design is the hallmark of the SOQI CERAMIC HEATER.
