QI, ENERGY AND SOQI

Traditional Chinese Medicine (TCM) is built on the foundation that all things in nature are connected and contain a vital energy called QI (pronounced "Chi"). Qi is made up of many different types of energy and must maintain a balance. In our body Qi can be heat, cold, blood, fluids, bone etc. Good health is obtained when all the types of Qi are in balance and flowing smoothly. When the energy of our organs, tissues, joints, circulation, and digestion are in harmony, good health occurs. When the different forms of energy of the body are not in harmony, the Qi or energy becomes blocked or interrupted creating a pattern in our body which often results in ill health. TCM believes Qi flowing freely creates a harmonious balance and promotes health.

The **SOQI** Products focus on various forms of Qi energy offering a unique and total holistic health package. The SOQI Products use thermal, motion, electrical and nutritional energy to promote balance and the flow of energy throughout the body.

CERAMIC HEATER

FIR Topical Warming Unit

Features & Benefits:

- Soothing FIR at beneficial 8-10 microns
- Warm and comfortable heat
- Digital controls with built-in safety features
- Simple to operate
- Small and portable
- Wide 160 degree heating surface area

SPECIAL FEATURES

•The Importance of 8 - 10 micron Far Infrared Rays:

Normal human body temperature is 98.6°F. Most of our body heat is typically lost in the infrared range of 8-10 micron, explaining why a room full of people becomes warm. So, if we generate 8 - 10 micron of infrared heat and direct it at the body, it matches the radiant energy being lost and restores balance to provide optimal comfort.

•Innovative Technology

The "Super Radiant Heating Surface" of the SOQI CERAMIC HEATER is covered with a very fine, multi-faceted, acute silicone surface manufactured in New Mexico. When rays are scattered in all directions by the multitude of surfaces created by these silicone crystals, the effectiveness of the 160 degree span is amplified. The radiant transmission area is increased some 10-fold. It simply wouldn't be possible to produce the effective warmth of the SOQI CERAMIC HEATER without the combination of these two concepts: proper wavelength and a special reflective silicon surface.

Advanced ERE™

Electro Reflex Energizer

The Advanced ERE is not just a foot massager; it is effective at producing an overall feeling of relaxation and rejuvenation throughout the body. The Advanced ERE also provides the option of using 3 sets of Electro-pads to pinpoint and stimulate multiple areas, such as the neck, shoulders, back and extremities. When used together the pads are very effective at relaxing muscle groups.

Not just a Foot Massager

- Delivers the benefits of reflexology.
- Provides low intensity stimulation on the feet.
- Allows for the usage of 3 sets of Electro-pads at once.
- Produces soothing warmth on the feet.
- Use the "Foot + Pad" mode with 3 sets of Electro Pads for holistic relaxation.

A Full Body Experience...

Just 5-30 minutes a day with the Advanced ERE will help you feel better, relax and revitalize your entire body.

SOQI®

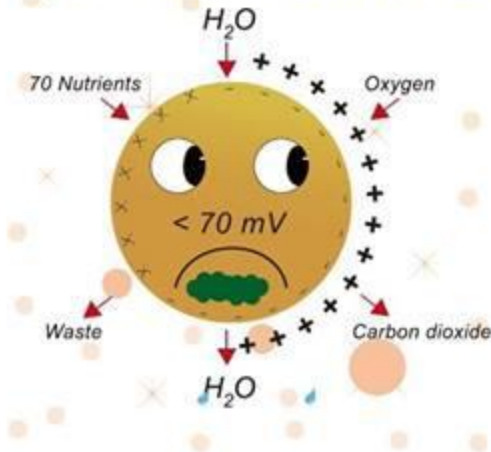

E-power

New Negative Potential Body Energizer

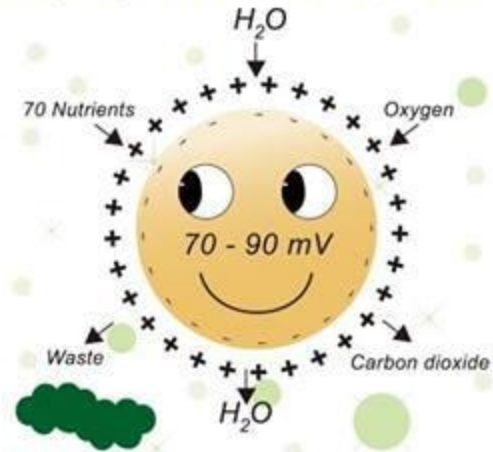

E-Power was designed to provide Negative Potential Energy with high frequency energy waves. Using your body as a capacitor, E-Power generates 70KHz of high frequency electrical waves, creating an internal energy that will balance and revitalize you.

Why Positive Potential can be harmful?

Why Negative Potential is Important?

A surplus of positive potential energy keeps nutrients, oxygen and water from entering the cell. It also keeps waste and carbon dioxide from exiting the cell. The cell also holds onto too much sodium+ / hydrogen+.

- Dual ports allow for two simultaneous users
- Do **NOT** use if you have a pacemaker, are menstruating, pregnant, or have a high fever.

SOQI Energy Wand

HTE developed the Energy Wand as an alternative way to directly Stimulate the meridians along our body. The Energy Wand is designed to be used in conjunction with the E-power to unblock the "Chi" blockage in these pathways through the Negative Potential Energy provided by the E-power.

SOQI®

BetaLoe

Designed for your well-being

What is BetaLoe™?

Beta-1, 3-D glucan, along with a scientifically and independently certified aloe vera are the sole active ingredients of BetaLoe™. The beta glucan is derived from the cell walls of the baker's yeast, making it the precise substance for which the actual glucan macrophage receptor has been identified. Beta-1, 3-D glucan is technically referred to as a poly-branched poly-glucose – so complex some refer to it as fiber. The aloe vera is from the well-known member of the lily family, *Barbadensis miller* with over 200 documented active biological compounds.

Certified Pure and Active

How does BetaLoe™ differ from other supplements? Vitamins & minerals are often purchased to enhance the building of healthy bone & tissue. Ironically, this tissue cannot protect or repair without a competent immune response. Think of BetaLoe™ as your one a day for the best immune system you can have.

Support your immune system and experience the synergistic benefits of the combination of two remarkable substances, Beta-1, 3-D glucan and Aloe Vera.

It's organic. The raw materials are also free of chemicals, metals and pesticides.

SOQI GoGreen

Designed to energize your body

New Go Green with formula upgrade!

What is pH ?

The **pH** scale is used to measure how acidic or alkaline the blood is. Just changing the pH by 1 or 2 points affects the body's electrical chemistry drastically.

The GOAL is to keep your pH in a balanced range of 6.8-7.2. When the balance is disrupted, illness and even death can result.

Fuel for the Entire Body Dietary Supplement
