SOQI Total Health Management

SOQI incorporates natural therapies and high quality products using a unique "Multiple Energy Approach" for your daily health management.

The multiple energy approach is a unique health concept by HTE. It's totally different from other products in the current market. The multiple energy approach works together synergistically and provides a healthy option for daily health management. We wish to improve your health from the inside out.

Motion Energy

Chi Machine® - Using motion energy along with Chi Kung principles, the Chi Machine® moves your entire body in an "S" shaped pattern, creating a resonance effect with all the bones and muscles in the body. A feeling of "Chi" or relaxation occurs over the body while aligning your back to its correct position. Using the Chi Machine® for 15 minutes every day is equivalent to walking 10,000 steps per day. (Medical Device Licence# 66598 Registered in Canada.)

Thermal Energy

HotHouse™ - A combination of thermal energy and Far Infrared Rays (FIR). The HotHouse™ provides a wonderfully warm and penetrating heat that goes deep into the skin, to help improve your blood circulation. (Medical Device Licence# 66569 Registered in Canada.)

Electric Energy

E-Power™ - Using electric energy along with high frequency negative potential energy, the E-Power™ creates a reverberation effect 70,000 times per second to help massage and revitalize the 60 trillion cells in our body. (Medical Device Licence# 83555 Registered in Canada.)

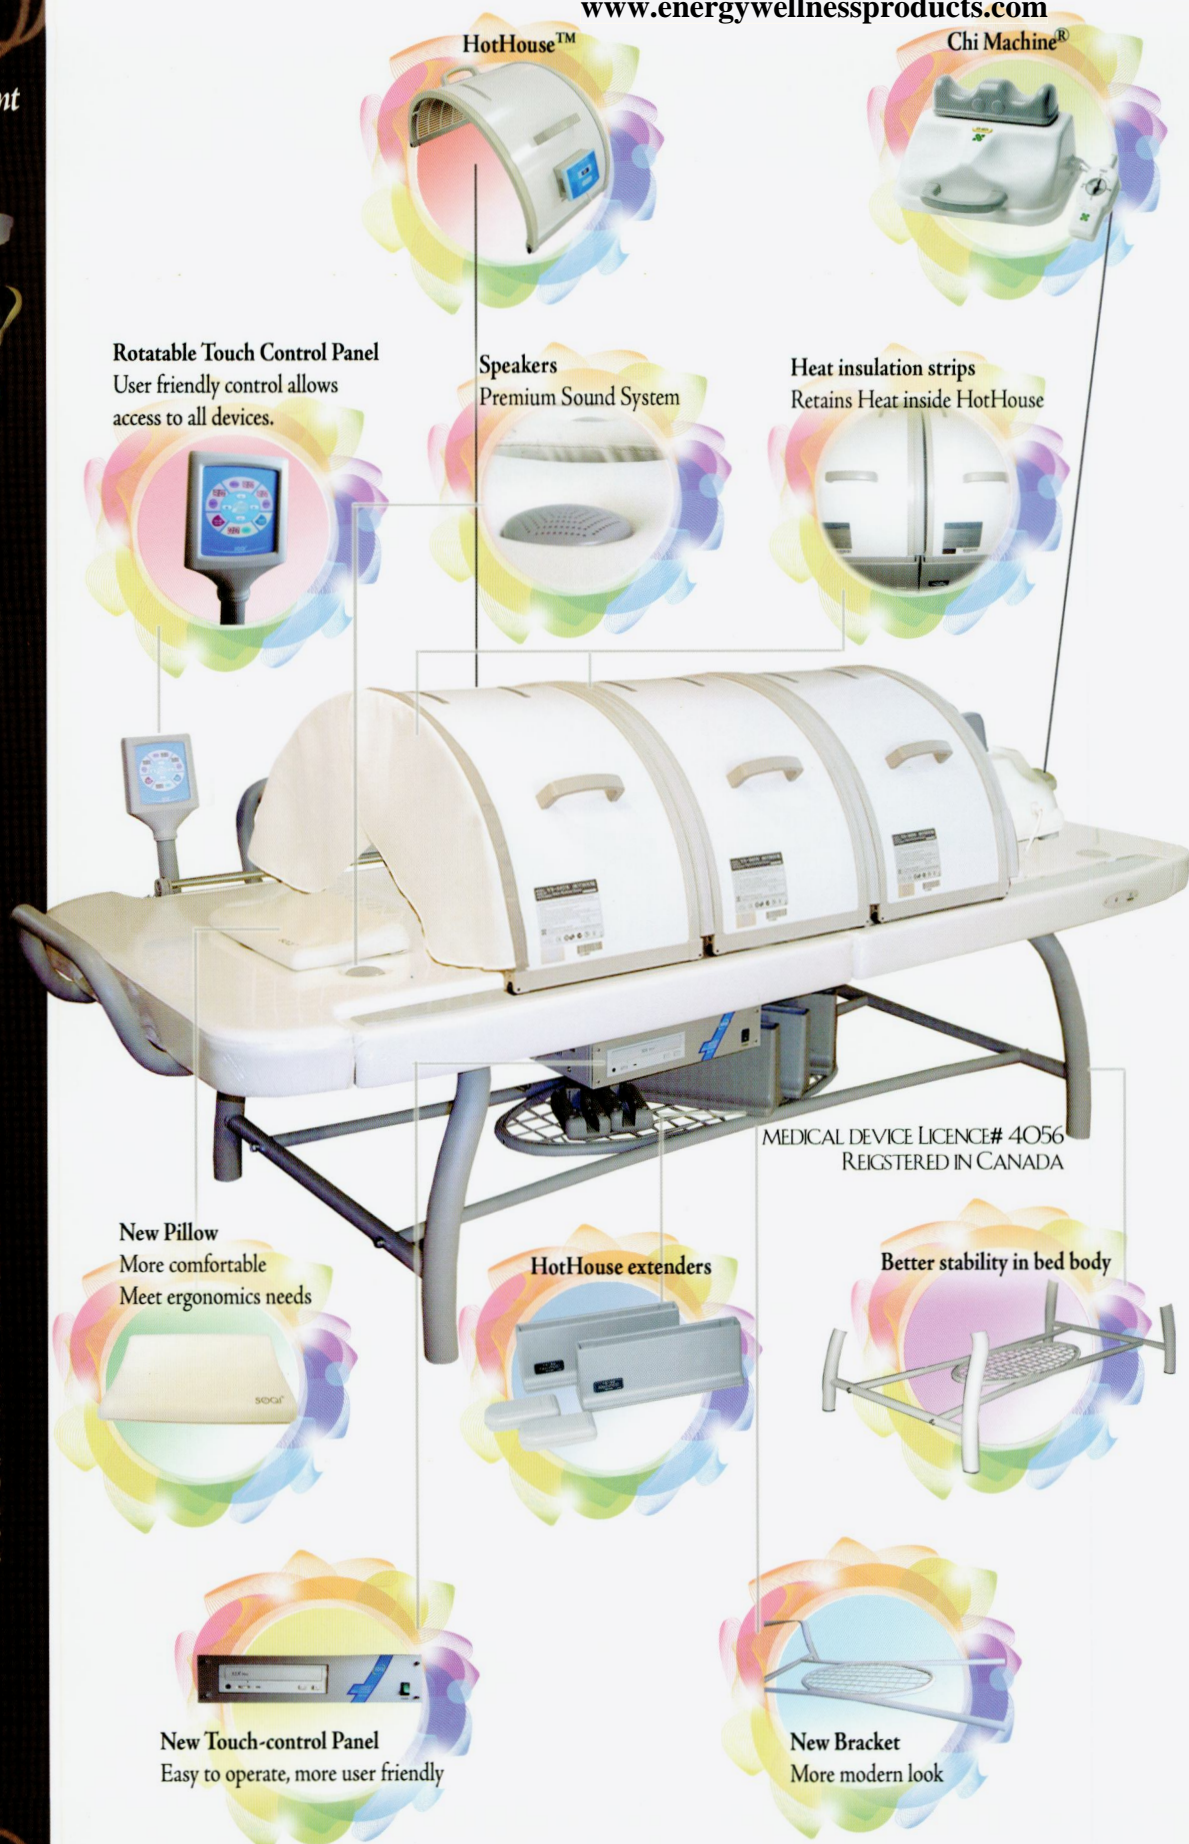

Advanced ERE™ - Our Advanced Electro Reflex Energizer (ERE), uses electric therapy to help your feet feel better and bring on a feeling of well-being. You can relax and revitalize your entire body while improving blood circulation with the ERE. Just 15-30 minutes per day is all you'll need to feel better. You can also attach the electro-pads anywhere on your body to release tension! (Medical Device Licence# 66568 Registered in Canada.)

Bonus Benefits:

- The Ultimate Total Health Spa experience
- An effective, easy and soothing way to achieve daily exercise & wellness.
- Durable, valuable and multi-functional.
- Start a SOQI Home Spa business at home
- Enjoy Health & Wealth at the same time
